2.6 Terms of use: Recommended Internet and devices

The operations of Cisco Webex Meetings and Inventech Connect depend on the internet capability owned by shareholders or proxies, including devices and/or programs installed therein. The following devices and programs are recommended by our e-Meeting Service Provider:

1. Internet speed should be at least 4 Mbps.
2. Mobile phones/tablet devices with Android operating system should support Android 9.0 version or above.

How to check the Android operating system version

Select Settings or Additional Settings > About Phone > Software Information or Android Version
